

Royston Electric HOTPLATE – 500mm HPE500

Royston®

500mm griddle plate helps you quickly scale up your restaurants cooking capability. Step shaped splashback along with precision control over the cooking process makes this unit extremely versatile in the kitchen

Description

The Royston range of hot plates allows you to quickly scale up your restaurant's cooking capacity while maintaining a small footprint. This unit feature a 500mm wide cooking surface with a step shaped splashback to prevent spills and splashes from getting on to walls and other equipment. The temperature range of the hot plate ranges from 50°C to 300°C allowing you to have better control over the cooking process.
