Description

Titan Multipurpose Plastic Mat Shelving Units are designed to withstand the rigours of daily use. With a large load capacity of 250 kgs per shelf* and extreme temperature resistance, Titan Shelving units are a perfect fit for cool room or freezer room storage solutions. All shelves are galvanised and grey powder coated providing maximum corrosion resistance. Plastic mats are fully removable and dishwasher safe. Additionally, the plastic mats are fungi proofed for added food safety. All shelving units are flat packed for easy transport and are extremely easy to assemble. Titan Shelving Units offer full flexibility with a wide range of sizes available.

*250 kg/shelf capacity without castors. Max. weight with castors: 120 kg
