

KSS Stainless Steel Coffee Cart

Description

The KSS Mobile Coffee Cart is a standalone unit that is engineered to maximise work space in the smallest footprint. The unit features a high quality stainless steel construction with a distinctive, lockable gull wing design. Fold out side benchtops and serving shelves provide additional work space. The built in sink along with dedicated areas for a refrigerator and storing dry goods means that this unit is completely self-contained. The Cart also comes with provision for lighting, signage, a music system as well as a concealed cash drawer for added security. The Coffee Cart comes on heavy duty castors for increased mobility and portability. With the Mobile Coffee Cart you can take your business to the customers, without the added costs of expensive real estate set-up and fitouts. The Mobile Coffee Cart gives you the freedom to trade wherever you wish
