

Mitchel Refrigeration Stainless Steel Six-Half Door Refrigerator

Choose Mitchel Refrigeration Stainless Steel Upright Refrigerators for the optimum mix of price, performance and efficiency.

Description

The Mitchel Refrigeration GN Series Refrigerators and Freezers come in single, double, four and six door variants. Featuring a large internal capacity, the GN Series features a solid body construction and a fan cooled, frost free design. All GN Series units fit standard gastronorm trays and come on castors for easy mobility. All GN Series products are fully MEPS approved and only use ozone friendly R134a and R404a refrigerants in accordance with Australian Law.

The R1880HDGN has an internal capacity of 1880 litres and constructed with a 430 grade stainless steel exterior and a painted aluminium interior. The unit features a 4x1/2 door design that makes it easier than ever to access products inside the fridge without disturbing other compartments or loss of cooling
